SRI B. MANJUNATH PAI MEMORIAL P. G. CENTRE
SRI BHUVANENDRA COLLEGE
KARKALA-574104

Sri Bhuvanendra College, Karkala, is an Arts, Science and Commerce college founded in 1968 and affiliated to the Mangalore University. The management of the College is vested with Sri Bhuvanendra College Trust, a registered body and sponsored by the Academy of General Education, Manipal. Dr. T. M. A. Pai - the wizard of Manipal, is the visionary whose far sightedness has transformed a barren tiny village into a productive mega town with its thrust on health, education, banking and alleviation of poverty through industrialization and job creation. The monumental phenomenon testifies the spirit of dynamism that all institutions of Dr. T.M.A. Pai embrace. The set goal is to frame, organize and to execute a specific methodology in order to provide quality education under the umbrella of Sri Bhuvanendra College Trust.

SRI B. MANJUNATH PAI MEMORIAL POST GRADUATE CENTRE:
Sri Manjunatha Pai Memorial Post Graduate Centre, affiliated to Mangalore University was set up in the year 2010-11. The Post graduate department is committed to provide students with an ambience and environment to flourish and fulfil their goals and recognise the importance of diversity of understanding individual ways of learning and how they can complement each other to deliver quality results.

PRODIGY
Prodigy is an opportunity for students to think professionally and present proficiently, their talent in strategic manner. Though prodigy means 'born talent', it is said that experts are made than born. To sustain in competitive world, each individual needs to be an expert in her/his known area interest. So "Prodigy" is a platform provided by Sri B Manjunath Pai Memorial P.G. Centre of Sri Bhuvanendra College for networking and collaboration among participants to enhance their knowledge and hone their skills. "Prodigy" is a University Level Paper Presentation Competition for Post Graduate Students on 14th November 2018.

CALL FOR PAPERS:
Globalization and digitalization with the penetration of internet and mobiles have envisaged a new way of life which more prominently operates on virtual space creating a global network society where citizenship is more beneficial than citizen ship. Whether we refer at our job or business, whether it's about information, communication and relaxation, all are related to this technological innovation. Therefore, traditional business institutions have seen their markets, economic

models, power relationships and other aspects of business upended by ordinary consumers empowered by digital technologies. Many Companies have seized the opportunities afforded by ICTs and the inherent power of networks to rethink company business models and practices, leading to broader participation and fundamentally changed relationships with customers and the broader public. Investment, manufacturing, marketing, banking, human resource management - all have got into digital sphere. Concepts like Artificial Intelligence(AI), Internet of Things(IOT), chat-bots, data mining and data analytics, data tracking and data hacking, CNC machines and 3D printing technology and Websites and Business Apps are redefining manufacturing and marketing, banking and human resource management. The enormous potential brought in the development of a business, has stimulated the appearance and promotion of new concepts, such as electronic business (e-business) and electronic commerce (e-commerce). Over time, these have proved to be viable and extremely profitable alternatives, of the traditional way of doing business or commerce.

In the meanwhile we can not ignore the potentially serious legal, ethical and moral issues raised by technology and its potential system of values and moral principles for the conduct of digital interactions between businesses, people and things.

For responsible decision making in a business environment, a good set of ethics is key. It includes proper business policies and practices regarding potentially controversial issues such as corporate governance, insider trading, bribery, discrimination, corporate social responsibility and judiciary responsibilities.

Corporate Social Responsibility (CSR) is a commitment by business to behave ethically and contribute to economic development. By practising corporate social responsibility, companies can be conscious of the kind of impact they are having on all aspects of society. Also, the more visible and successful a corporation is, the more responsibility it has to set standards of ethical behavior for its peers, competition, and industry.

Against this back drop, the post graduate department of commerce is organising University Level Paper Presentation Competition for Post Graduate Students on the theme "Business Ethics and CSR in Digital Era" on 14th November 2018 for M. Com students.

Guidelines for Paper Presentation Competition:

1. The competition is open for only M.Com students from all recognized institutions and universities.
2. Maximum of two authors are allowed for each paper.
3. Any number of entries can be submitted from a single institution in different specialized areas.

3.. It was resolved to conduct a theatre workshop.

Action taken:

Theatre work shop

Inaugurated by Dr. Shantharam
Administrative Officer, AGE

Valedictory Address by
Sri Nagesh Kumar, Udyavara, Theatre Artist

Dr. Maniula Subramanya, Akashavani

Sri Basuma Kodagu, Theatre Trainer

. Emotional Intelligence :

FACULTY DEVELOPMENT PROGRAM ON
EMOTIONAL INTELLIGENCE

Overview
EMOTIONAL INTELLIGENCE (EI) is ability to identify, assess, and control the emotions of oneself, of others, and of groups. We observe that the supposedly brilliant and well-educated people struggle to accomplish great things. We have seen that there are always those brilliant in the workplace, the ones who inspire others and seem to provide the momentum for the entire team. What makes great leaders truly extraordinary is not necessarily their IQ, but their EQ. Not education, neither experience nor knowledge completes the skill set required. Then what is it? It is almost always this concept called emotional intelligence.

Emotional Intelligence is so critical to success that it accounts for 58 percent of performance in all types of jobs says a research. Here is a workshop on Emotional Intelligence that would help professionals, perform better, build lasting business relationships and serve the clients better.

Target Audience: To understand the significance of EI at workplace, and learn how to improve and apply Emotional Intelligence at work.
To become emotionally intelligent personally and professionally.

Program Contents
Introduction to Emotional Intelligence
Why EQ matters more than IQ?
Knowing Emotions
Becoming aware of your emotions
Being sensitive to self and others
How Emotional Intelligent are you?
EQ Test
Improve your EI
Developing EI will impact on all areas of life:
Self-Management
Emotional resilience
Personal power
Goal directedness
Flexibility
Personal connections
Self-awareness
Self-Regard
State of emotional mastery
Relationship - Management
Trust - balanced outlook (realism)
Emotional expression and control
Conflict handling
Interdependence
Emotional Intelligence and Organizational Effectiveness
Building an Emotionally intelligent Workplace.

Duration
2 Days

Program Date
1st and 2nd March 2018

Venue
Sri Bhuvanendra College,
Karkala
